ABOUT INSTITUTE :

D. Y. Patil Technical Campus Ambi, located near Talegaon, Pune was established in the year 2006 by Honorable President Dr. Vijay D. Patil of D. Y. Patil Educational Academy with the aim of developing the campus as educational excellence with global recognition. D. Y. Patil School of Engineering Academy Ambi Talegaon was established in the year 2011 with the spirit of producing best technocrats and entrepreneurs who can contribute in the development of nation. The college is approved by AICTE and Savitribai Phule Pune University. It offers Undergraduate courses in Engineering and Technology in the fields of Computer Engineering, Electronics and Tele-communication Engineering, Civil Engineering, Automobile Engineering and Mechanical Engineering & two post graduate courses namely Signal Processing & Heat Power Engineering

ABOUT DEPARTMENT :

Since the invention of transistor at Bell Laboratories in 1947, the field of electronics has grown exponentially and it continues to grow. From a simple 1-transistor IC, now the field is witnessing million transistor ICs. Similarly, the communication engineering has progressed tremendously from the days of Alexander Graham Bell. Together these two areas touch upon every phase of human life.

The Department of Electronics and Telecommunication was established in the year 2011 to impart the quality education to the budding engineers. As, 21st century is the century of communication and competition, our main motto is to produce graduates who will be technically sound, well cultured and globally competent.

ABOUT CONFERENCE :

"Every beautiful destination has a beginning & every beginning has a meaningful initiative!" We as an organization are proud to organize 'NCRTECC2018'. This trend NCRTECC2018 will provide a platform to discuss the strengths, weakness and opportunities involved in recent trends in Electronics, Communication & Computing with respect to current global technical scenario. This Conference aims to foster and conduct collaborative interdisciplinary research in technologies within its areas of expertise.

The primary objective of the conference is to ensure convergence of the technologies and multidisciplinary engineering practices.

CALL FOR PAPERS :

The papers are invited in their original contribution from the faculty members of engineering colleges, professionals from R&D institutes, research scholars and students in the given below areas and not limited to:

- ❖ Emerging Trends and Development in VLSI
- ❖ Biomedical Sensors & Instrumentation
- ❖ Nano-fabrication & Computing
- ❖ Embedded & Real Time OS
- ❖ Digital Signal Processing & image processing
- ❖ Mobile and Wireless Communication Network
- ❖ Robotics, Automation & Mechatronics
- ❖ Data mining and Information retrieval
- ❖ Networking and Cloud Computing
- ❖ Fog Computing
- ❖ Network and Cyber Security
- ❖ Soft computing and Artificial Intelligence
- ❖ Big Data Analysis, Security Issues in Big Data
- ❖ IoT & Eco-system
- ❖ Others

SUBMISSION GUIDELINES :
